

ROAD TRANSPORT AND WAREHOUSING

In 2016, in response to the needs of our partners, the Real Logistics Group offer was extended to road transportation, complementing other types of transportation, as well as storage services in Poland.

Road transport

We provide high quality transport for import and export in Poland and Europe. We specialize in handling pic-ups and deliveries for sea transportation (mainly Gdynia, Gdansk, Hamburg, Koper) and railway transportation (Malaszewicze, Lodz, Warsaw, Poznan, Wroclaw, Slawkow, Nuremberg, Budapest, Duisburg, Tilburg). We transport various types of cargo, from one pallet to 24 tonnes FTL. We are experienced in unusual and oversized loads, as well as dangerous cargo and goods that require temperature control.

We have our own trucks and cooperate with a large network of reliable subcontractors. We handle 250 LTL, 80 FTL, 200 FCL monthly. We use our own OCPU insurance. We also offer cargo insurance for each individual load.

Storage

We offer several attractive warehouse locations, including Warsaw, Lodz, Malaszewicze and Wroclaw. These are customs warehouses, 9m high, with professional WMS. The warehouses located in Wroclaw and Lodz are mainly reloading warehouses. The warehouse located in Warsaw also has the status of customs warehouse. Only in Warsaw we have 4000 m² of warehouse space. In addition, we have warehouses in Duisburg, Hamburg, Prague, Budapest and Hoofddorp.
