

LCL RAIL CONSOLIDATION

China
↕
Europe

Consolidation of LCL cargoes and moving those by railway to/from China is one of our areas of specialisation.

Benefits for our partners:

- ▶ shorter transit time (China – Europe 12-14 days, Europe – China 14-16 days), faster stockrotation, quicker profit gaining in comparison with seafreight
- ▶ regular weekly departures guaranteed
- ▶ prices comparable or even lower than seafreight
- ▶ lowered risk of cargo damage – crucial for goods vulnerable for moisture, sea salt or climate zone changing
- ▶ minimized risk of cargo loss caused by extreme meteorological phenomena

Our Standard Operation Procedures:

- ▶ cargo pickup at any place in European Union and China
- ▶ haulage to/from warehouses located in Poland and China – full care of cargo through the process
- ▶ cargo consolidation in the best and most beneficial way for customer
- ▶ full support through process, starting from custom clearance documentation, insurance, up to e-commerce solutions
