WAREHOUSING AND TRANSSHIPPING SERVICES

仓储和换装服务

We offer safe, professional storage of goods before it's further transport. Our warehouses in Central Europe are located in locations strategic for international transport.

All our warehouses act as temporary storage customs warehouses. Goods which, for various reasons, cannot be cleared instantly, or these waiting for reloading can be stored out in our warehouses for up to 90 days.

We have vast experience in reloading cargos from standard trucks into containers and vice versa.

在下一步运输之前，我们提供安全，专业的货物储存。我们的仓库位于欧洲国际运输的核心位置。我们所有的仓库都是临时仓库。由于某些原因不能立即清关或是需要等待换装的货物，可以在我们的仓库中堆存长达90天。

我们在将货物从卡车重新装入集装箱方面有着丰富的经验，反之亦然。

As part of the container transshipment service, we create photo documentation in accordance with requirements of the railway operators.

作为集装箱转运的一部分，我们会根据铁路运营商的要求准备照片和文件。
